COMPANY PROFILE

Al Sumood Professional CO.LLC established in 2010 as a Limited Liability Company with interests to provide support & supply of equipment and services to all sectors in the Sultanate of Oman.

Al Sumood Professional CO.LLC over the years has established itself as an integrated engineering solution provider across the major disciplines, with our team of specialized team undertaking sales of engineering equipment and also providing installation and commissioning support.

Al Sumood Professional CO.LLC offers agency and representation services to companies seeking to do business in Oman's expanding Oil & Gas, Power, Energy, Water & Wastewater and Chemical sectors. Its mission is to align itself through collaborations and joint ventures with foreign companies offering high-tech, innovative solutions in our chosen area with a view to actively participating with them, by developing markets for their products in Oman and throughout the Middle-East.

Al Sumood Professional CO.LLC also provides vital services to the Oman Oil & Gas Industry, assisting local and multinational oil companies to enhance, maintain and successfully manage their business in Oman.

MISSION STATEMENT

To seamlessly integrate high quality products & superior services to provide cost-effective, value-added solutions to industrial market.

COMPANY VALUES

AL SUMOOD PROFESSIONAL CO. LLC, we are committed to providing exceptional quality and service. We conduct our business by the following core values.

- Professional conduct with honesty and integrity.
- Seek innovative solutions & providing them in a manner that is trustworthy.
- Honour our commitments to our clients and partners.
- Excellence through a culture of continual improvement.

CUSTOMER FOCUS

To achieve customer satisfaction, the quality of our products and services must be our highest priority. “As our services are viewed, so are we viewed”.

SUPPORT

We believe that an organisations largest asset is its employees. We pride ourselves on these values and we have grown exponentially over the years. We have strategized and have broken our teams into various divisions that can cater to the industry needs before and after we have fulfilled a client’s requirement.
